Allow the user to select one or more items from a set or to turn an option on.

Allow the user to deselect one or more items from a set or to turn an option off.

If some, but not all, child checkboxes are checked, the parent checkbox becomes an indeterminate checkbox.

Allow the user to select one or more items from a set or to turn an option on.

- Label to be used when checkbox is alone or used in a set.

Allow the user to select one or more items from a set or to turn an option on.

- Label to be used when checkbox is alone.

Allow the user to select one or more items from a set or to turn an option on.

- To be used when checkbox needs a label but is in a list or group in inputs with size 12px labels.
